To achieve this vision, it will require a commitment of financial and human resources by the community of learners to be served.

SCHOOL DISTRICT BUDGET & ILLINOIS SCHOOL REPORT CARD

The School District's financial budget and Illinois School District Report Card are posted on the District's website - www.unit10.com. The District's current budget is normally approved at the September Board meeting, and the School Report Cards are usually available in November. Illinois School Report Cards are summary pages of educational, operational, and financial aspects of each building and the District.

EQUAL EDUCATIONAL OPPORTUNITIES

Equal educational and extracurricular opportunities shall be available for all students without regard to color, race, nationality, religion, sex, sexual orientation, ancestry, age, physical or mental disability, gender identity, status of being homeless, immigration status, order of protection status, actual or potential marital or parental status, including pregnancy. Further, the District will not knowingly enter into agreements with any entity or any individual that discriminates against students on the basis of sex or any other protected status, except that the District remains viewpoint neutral when granting access to school facilities under Board of Education policy 8:20, Community Use of School Facilities. Any student may file a discrimination grievance by using Board policy 2:260, Uniform Grievance Procedure.

Sex Equity

No student shall, based on sex, sexual orientation, or gender identity be denied equal access to programs, activities, services, or benefits or be limited in the exercise of any right, privilege, advantage, or denied equal access to educational and extracurricular programs and activities.

Any student may file a sex equity complaint by using Board policy 2:260, Uniform Grievance Procedure. A student may appeal the Board's resolution of the complaint to the Regional Superintendent (pursuant to 105 ILCS 5/3-10) and, thereafter, to the State Superintendent of Education (pursuant to 105 ILCS 5/2-3.8). The Nondiscrimination and Title IX Coordinator for the District is Mr. Jay Lentz, and he may be contacted at 409 W. Dale Street, Dahlgren, Illinois, or by calling (618) 643-2328.

EQUAL EMPLOYMENT OPPORTUNITIES

The School District shall provide equal employment opportunities to all persons regardless of their race; color; creed; religion; national origin; sex; sexual orientation; age; ancestry; marital status; arrest record; military status; order of protection status; unfavorable military discharge; citizenship status provided the individual is authorized to work in the United States; use of lawful products while not at work; being a victim of domestic or sexual violence; genetic information; physical or mental handicap or disability, if otherwise able to perform the essential functions of the job with reasonable accommodation; pregnancy, childbirth, or related medical conditions; credit history, unless a satisfactory credit history is an established bona fide occupational requirement of a particular position; or other legally protected categories. No one will be penalized solely for his or her status as a registered qualifying patient or a registered designated caregiver for purposes of the Compassionate Use of Medical Cannabis Pilot Program Act, 410 ILCS 130/.

Persons who believe they have not received equal employment opportunities should report their claims to the Nondiscrimination Coordinator and/or a Complaint Manager for the Uniform Grievance Procedure. These individuals are listed below. No employee or applicant will be discriminated or retaliated against because he or she: (1) requested, attempted to request, used, or attempted to use a reasonable accommodation as allowed by the Illinois Human Rights Act, or (2) initiated a complaint, was a witness, supplied information, or otherwise participated in an investigation or proceeding involving an alleged violation of this policy or State or federal laws, rules or regulations, provided the employee or applicant did not make a knowingly false accusation nor provide knowingly false information.

Administrative Implementation

The Nondiscrimination Coordinator for the District is Mrs. Stephanie Lasswell, and she may be contacted at 501 E. Randolph St., McLeansboro, Illinois, or by calling (618) 643-2328. The Complaint Managers for the District are Jay Lentz, 409 West Dale Street, Dahlgren, Illinois, (618) 643-2328, and Christina Epperson, 210 South Pearl St., McLeansboro, Illinois, (618) 643-2328.

Minority Recruitment

The District will attempt to recruit and hire minority employees. The implementation of this policy may include advertising openings in minority publications, participating in minority job fairs, and recruiting at colleges and universities with significant minority enrollments. This policy, however, does not require or permit the District to give preferential treatment or special rights based on a protected status without evidence of past discrimination.

INSTRUCTIONAL MATERIALS FEES

No student will be denied enrollment because of a student's failure to present his/her student permanent or temporary records from a school attended previously. Each pupil is required to pay an instructional materials fee at the time of registration. The instructional materials fee is used to purchase basic and supplemental texts — hardcover and paperback, periodicals, workbooks and supplies. During the 2023-2024 school year, fees for students in grades K-12 will be \$30. Students in grades 5-12 will also pay an additional \$3.00 fee for a student handbook, and students in grades K-12 will also pay an additional \$20.00 technology fee. Students in grades 7-8 will pay a \$15 fee for a PE uniform. Students may pay additional replacement costs for books lost or damaged beyond normal wear. Locks for lockers are available at the 7-12 building for \$6.00. Locks are optional at the Sr. High, but required on P.E. lockers at the Jr. High. Fees for specific elective courses are as follows:

Applications requesting waiver of fees should be submitted to the principal. Forms for submission of such requests are available in the principal's office. The use of false information to obtain such waiver is a felony under Illinois law. Any inquiries should be directed to the principal of the school in which your child is enrolled. **Rend Lake College Dual Credit classes and Driver Education do not qualify for a fee waiver.**

CHILD CARE PROGRAM

Hamilton County Unit No. 10 School District is one of the very few schools in the state of Illinois that provides a fully approved and licensed child care program for children that have reached the age of 15 months. The fees for children attending the Child Care program are as follows:

<u>Ages 15 - 23 Months</u>	<u>Ages 2-12 Years</u>	<u>Before & After School Child Care</u>
\$28.00/day (5 hrs. or more)	\$23.00/(5 hrs. or more)	\$6.00/hour
\$14.00/(a.m. or p.m.)	\$12.00/(a.m. or p.m.)	

In addition to the above fees, the cost for breakfast is \$2.00/day and the cost for lunch is \$3.00/day. Some students may qualify to receive breakfast and lunch at free or reduced prices. Please see the Building Principal to determine if you meet federal requirements for free or reduced price meals. The reduced breakfast price is 30 cents and the reduced lunch price is 40 cents. To attend the child care program, a child must be enrolled in advance and parents must sign a contract for a minimum of two (2) days per week. Drop-offs will not be accepted. Available slots will be filled on a first-come, first-serve basis. Payment is expected in advance, no exceptions.

DHS funding is available through the State of Illinois for reduced fees if parents in the family unit are working or going to school. To qualify, parents must verify their income, class schedules, sign an application, and pay the weekly fee which is figured from a state scale. One fee is charged for the entire family and that fee is based on family size and income level. This fee must be paid in advance for the child to attend. It is to your advantage to ask about this program. Check with the director if you need to determine your qualifications or additional information about the child care program.

SCHOOL FOOD SERVICE FEES

Hamilton County Unit No. 10 School District maintains three cafeterias in order to provide a nutritional lunch and breakfast to each student. The price of lunch is \$3.00 for K-6th grade students, \$3.50 for 7-12 grade students, and \$4.00 for adults. The price of breakfast is \$2.00 for K-6th grade students, \$2.25 for 7-12 grade students, and \$2.50 for adults. Some students may qualify to receive breakfast and lunch at free or reduced prices. Parents are requested to apply to the building principal to determine if they meet federal requirements for free or reduced price meals. The reduced breakfast price is 30 cents and the reduced lunch price is 40 cents. Students may bring lunch from home and purchase milk for 50 cents per half-pint.

School food service helps contribute to the education of the students in three ways: (1) their physical well-being; (2) their mental receptivity; (3) their knowledge of food and application of good eating habits.

In accordance with Federal Law & U.S.D.A. policy, this institution is prohibited from discriminating on the basis of race, color, national origin, sex, age, or disability. To file a complaint of discrimination, write USDA, Director, Office of Adjudication, 1400 Independence Ave., SW, Washington, D.C. 20250-9410 or call toll free (866) 632-9992 (Voice). Individuals who are hearing impaired or have speech disabilities may contact USDA through the Federal Relay Service at (800) 877-8339; or (800) 845-6136 (Spanish). USDA is an equal opportunity provider and employer.

*Dual Credit Courses

UNPAID MEAL CHARGES: LOCAL CHARGE POLICY REQUIREMENT

Parents/Guardians are encouraged to keep student's lunch balances paid. Lunch accounts should be treated like a checking account and not like a credit card. Parents/Guardians will be notified of student's lunch balances by phone call and/or letters. Parents/Guardians that have a student that continues to have negative lunch balance will be notified by the cafeteria director about possibly qualifying for free/reduced lunches. Students that have a negative balance greater than \$10.00 will not be able to attend non-academic field trips, club trips, homecoming, dances and/or any other non-academic "special" school events. Student athletes that have a negative lunch balance greater than \$10.00 will not be able to participate in games, but can attend games and participate in practice. To participate in Spring Fling, Prom, High School Graduation Ceremony, 8th grade Recognition, 8th grade Holiday World trip, end of the year fun day for 7th grade, end of the year fun day at East Side and Dahlgren, a student cannot have a negative lunch balance.

ATHLETIC FEES

An athletic participation fee of \$55.00 will be charged to 7th-12th grade students participating in athletics. A \$20.00 athletic participation fee will be charged to 1st-4th grade students participating in athletics and a \$30 athletic participation fee will be charged to 5th-6th grade students participating in athletics. This fee will be non-refundable after the season starts.

SCHOOL WELLNESS PLAN

The Hamilton County Unit No. 10 School District Wellness Committee works to develop, implement, monitor, review, and, as necessary, revise school nutrition and physical activity policies. The District Nurse coordinates the committee meetings. The committee consists of parents, students, school food authority representatives, school administrators, teachers, health professionals, and members of the public (if you are interested in participating, please contact Health Services at (618) 643-2328, ext. 2109 or 2120). The School Wellness Plan is available for review at each school site. The following are our goals:

- Make public aware of nutrition tips, nutrition information, nutrient analyses of school menus, and nutrition snack standards.
- School-based marketing of brands promoting predominantly low-nutrition foods and beverages is prohibited.
- Most foods and beverages sold outside the school meal programs (including snack lines, concessions, and fundraising activities) will meet the federal nutrition and portion size standards.
- Involvement of students and public in selection of healthy food choices.
- Students will be given opportunities for physical activity beyond physical education classes.
- Student participation in Jr./Sr. High School physical education will be increased.
- A more consistent and efficient method for mental health referral/counseling shall be developed.

SCHOOL DISTRICT SUPPLY OF UNDESIGNATED OPIOID ANTAGONIST

Naloxone (Narcan) is indicated for the reversal of opioid overdose induced by natural or synthetic opioids, relative to respiratory depression or unresponsiveness. It is the policy of Hamilton County Community Unit School District No. 10 schools to provide assistance to any person(s) who may be suffering from an opioid overdose following protocol and procedures of the school. A school nurse or trained personnel, as defined in State law, may administer an undesignated opioid antagonist to a person when they, in good faith, believe a person is having an opioid overdose.

ASTHMA ACTION PLAN REQUEST

Good management of your child's asthma is important to our school. Asthma is a condition that can be serious and may require emergency treatment while at school. Therefore, it is important to have up-to-date information about management of your child's asthma. An Asthma Action Plan outlines emergency treatment for an asthma attack and must be signed by a qualified medical practitioner. This management form should be updated annually or whenever the student's asthma or medications change significantly. If there is no asthma action plan provided by you for your child's asthma, we will treat your child according to our Hamilton County Unit No. 10 School Asthma Episode Emergency Response Protocol. The school also reserves the right to call an ambulance for any child they consider to be having an asthma attack or if a child is having difficulty breathing.

ATTENDANCE POLICIES

Pupils cannot profit to the fullest extent from school work unless they attend regularly. Regular attendance and scholarship are closely associated.

Policy 7:70 of the Hamilton County Community Unit #10 Board of Education Policy Handbook dealing with absence and excuses follows:

Illinois law requires that whoever has custody or control of any child between 6 (by September 1) and 17 years of age shall assure that the child attends school in the district in which he or she resides, during the entire time school is in session (unless the child has already graduated from high school). Illinois law also requires that whoever has custody or control of a child who is enrolled in the school, regardless of the child's age, shall assure that the child attends school during the entire time school is in session.

There are certain exceptions to the attendance requirement for children who attend private school, are physically or mentally unable to attend school (including a pregnant student suffering medical complications as certified by her physician), are lawfully and necessarily employed, are between ages 12 and 14 while in confirmation classes, have religious reason requiring absence, or are 16 or older and employed and enrolled in a graduation incentive program.

ATTENDANCE PROCEDURES

Parents should call the main office before 10:00 a.m. on the day of their child's absence pursuant to 105 IL School Code 5/26-3b. A student who is absent from school should bring a signed statement from his/her parents explaining the cause of the absence. The signed statement should be presented in the main office. At the Junior and Senior High Schools, students will then be issued the necessary "admit slip." After obtaining an "admit slip", the student should present it to each of his/her teachers at the beginning of each period, and leave it with the last hour teacher.

All dental and doctor appointments should be made (if at all possible) after school and on Saturdays or during vacation periods. Work missed during an excused absence must be completed to the satisfaction of the teachers. The responsibility for make-up work is placed on the student with reasonable cooperation from the teacher.

Reasons for Excused Absences

- (A) Sickness - personal or immediate family.
- (B) Death in family or intimate friend.
- (C) Medical or dental appointment (appointments should be other than during school hours).
- (D) Emergency situations.
- (E) Recognized school sponsored field trips.
- (F) Justifiable requests by parents (must be approved in advance by the principal).
- (G) Religious holidays.

Unexcused Absences

Unexcused absences are those which the school administration cannot conscientiously approve. The parent may or may not be aware that the student was absent. Absences for reasons other than those listed will be considered unexcused.

LEAVING BEFORE THE CLOSE OF SCHOOL DAY

For the welfare and protection of your child, you are asked to cooperate in the following procedures: If for any reason a child is required to leave school during the school day, a signed note from the parent must be sent in advance to the principal's office. This note must be approved by the principal. Any adult who comes for a child must go to the principal's office and receive authorization to take the child from the school.

EMERGENCY DISMISSALS

In the event of inclement weather conditions or other emergency situations affecting the school schedule, the following radio and television stations will be contacted prior to 6:00 a.m. of the affected day:

WMCL Radio	1060 AM	McLeansboro
WISH Radio	98.9 FM	McLeansboro
WRUL Radio	97.3 FM	Carmi
WFIW Radio	104.9 FM	Fairfield
Z100 Radio	99.9 FM	Cartersville
WSIL T.V.	Channel 3	Harrisburg

In the event inclement weather conditions or other emergencies occur after school has begun and a decision is made to dismiss classes early, that announcement will be placed on the above listed radio stations. DO NOT CALL the radio stations, bus garage, or school. If no announcement is made, please assume that school will be conducted as scheduled.

You are urged to plan for such contingencies. Be sure that your child and your child's bus driver know where the child should go in the event of an early dismissal.

The District will also activate the TeacherEase automated phone calling system to inform parents of school closings and other pertinent information throughout the year as school officials deem necessary.

FIRE AND DISASTER DRILLS

All teachers will instruct students some time during the first week of school on procedures to follow in case of fire or disaster drills. Students are encouraged to pay close attention, and follow these directions throughout the school year.

TITLE I PARENT INVOLVEMENT

It is the policy of the Board of Education to comply with Federal Rules and Regulations to ensure parental participation in the design and implementation of Title I projects. Therefore, steps will be taken to obtain parent participation in all phases of the project. Parents will be:

1. Informed of the instructional outcomes for their child;
2. Given periodic reports on their child's progress;
3. Contacted at least once per year for an individual parent/teacher conference;
4. Given an annual needs assessment for input into the project; and
5. Invited to an annual planning meeting for discussion and suggestions regarding planning, development, and operation of the program.

Each attendance center in the District will maintain a file with appropriate parent involvement information and literature regarding the Title I program, as well as a Complaint Resolution Procedure. For each student served, parents, teachers, and administration will complete a Parent/Student/School Compact whereby responsibilities of each is identified.

INFORMATION TO PARENTS CONCERNING SPECIAL EDUCATION

The Hamilton County Community Unit School District #10 offers a free and appropriate education to all children. Any child ages 3-21 residing in the school district is eligible for special education service if he/she is:

Deaf	Multiply Disabled
Deaf/Blind	Orthopedically Impaired
Hearing Impaired	Health Impaired
Cognitive (Disabled)	Learning Disabled

Speech/Language Impaired	Visually Handicapped
Emotionally Disturbed	Autistic
Traumatic Brain Injury	

The Hamilton County Community Unit School District #10 makes available:

1. An annual screening of all children between the ages of 0 through 5.
2. Hearing and vision screening at regular intervals.
3. Speech and language screening upon initial enrollment in school if recommended.
4. An ongoing annual screening by teachers and other professional personnel for referral of those children who exhibit problems which interfere with their educational progress and/or their adjustment to the educational setting.

Referrals for preliminary evaluation may be made through the building principal, by school district personnel, the parent of the child, community service agency personnel having primary care and custody, other professional persons having knowledge of the child's problems, the child, or the State Board of Education when there is reason to believe that a child may require special education. Within 14 school days after receiving the written request, the district will decide whether to evaluate the child or not. If the district determines an evaluation is warranted, then the district will provide the parents with the paperwork to provide formal written consent. If the district determines that the evaluation is not necessary, it must notify the parent in writing of the decision not to evaluate and the reasons for the decision. Parents need to submit a request for evaluation to have their child considered to be eligible for special education services. It is best to put your request in writing. Not all referrals result in an evaluation being conducted. To be eligible to receive special education services, the child must have a disability that impacts education performance.

The District maintains related service logs that document the type and number of minutes of related services administered under a student's individualized education program (IEP). These related service logs will be available to parents/guardians at a student's annual review IEP meeting. Parents/guardians may also request a copy of any IEP related service log maintained for their child. Please direct any requests for a copy of a related service log for your child to Christina Epperson, Special Education Coordinator.

It is the intent of the District to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified, evaluated, and provided with appropriate educational services. Students may be disabled within the meaning of Section 504 of the Rehabilitation Act even though they do not require services pursuant to the IDEA.

For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in the Illinois State Board of Education's Special Education rules. For those students who are not eligible for services under IDEA, but, because of disability as defined by Section 504 of the Rehabilitation Act of 1973, need or are believed to need special instruction or related services, the District shall establish and implement a system of procedural safeguards. The safeguards shall cover students' identification, evaluation, and educational placement. This system shall include notice, an opportunity for the student's parent(s)/guardian(s) to examine relevant records, an impartial hearing with opportunity for participation by the student's parent(s)/guardian(s), representation by counsel, and a review procedure.

ADMINISTRATION OF MEDICATION AT SCHOOL

The purpose of administering medication in school is to help each child maintain an optimal state of health that may enhance his/her educational plan. The medications shall be those required during school hours that are necessary to provide the student access to the education program.

If a student demonstrates a sufficient need for medication during the school day, the district may allow either self-administration of the medication, or may provide for a school employee to administer the medication (following the District's procedures on dispensing medication). No student shall possess or consume any prescription or non-prescription medication on school grounds or at school-related functions other than as provided for in this policy and its implementing procedures.

The intent of the guidelines is to reduce the number of medications given in school, yet assure safe administration of medications for those children who require them.

The objective of any medication program includes facilitating self-responsibility for medication after appropriate counseling and teaching children and families about health and self-care. It is within the scope of the school nurse's responsibility to provide counseling to children regarding appropriate medication use. Only those medications which are necessary to maintain the child in school and must be given during school hours shall be administered. In the absence of licensed medical staff, the school principal or their designee will be responsible for delegating a staff member to dispense any student medications required during school hours. It is recommended that the school nurse in-service the delegated staff on medication administration and safety.

- a) The school nurse should be notified before medication is to be given in school by the parent, so an individual schedule can be established for the student.
- b) Each dose of medication shall be documented in the child's individual health record. Documentation shall include date, time, dosage, route, and the signature of the person administering the medication or supervising the child in self-administration. In the event a dosage is not administered as ordered, the reason(s) shall be entered in the record.
- c) The certified school nurse may, in conjunction with a licensed prescriber and the parents/guardians, identify circumstances in which a child may self-administer medication.
- d) Effectiveness and side effects shall be assessed with each administration and documented as necessary in the child's individual health record. Written feedback in regard to effects for long term medications will be provided to the licensed prescriber or parent/guardian as indicated or requested.

- e) All permission for long-term medication shall be renewed at least annually. Changes in medication shall have written authorization from the licensed prescriber.
- f) All medications, including non-prescription drugs, given in school shall be prescribed by a licensed prescriber on an individual basis as determined by the child's health status (with two exceptions - see Sections M & Q).
- g) A written order for prescription and non-prescription medications must be obtained from the child's licensed prescriber. This order includes: child's name; date of birth; licensed prescriber and signature; licensed prescriber phone/emergency number; name of medication, dosage, route of administration, and frequency and time of administration; date of prescription; date of order; discontinuation date; diagnosis requiring medication; other medication child is receiving; time interval for re-evaluation.
- h) In addition to the licensed prescriber's order, a written request shall be obtained from the parent/guardian requesting the medication be given during school hours. The request must include the parent's/guardian's name and phone number in case of emergency. It is the parent's/guardian's responsibility to assure that the licensed prescriber's order, written request and medication are brought to school.
If an individual Health Care Plan/Action Plan is completed by an MD or other state approved health care provider and includes medication to be received (including dose and route), then the District Medication Form will not be used. The parent will also sign consent on the Individual Care Action Plan in place of the District Medication Consent Form.
- i) Medication must be brought to the school by the parent/guardian (NOT the student) in the original package or an appropriately labeled container. Prescription medications shall display: child's name; prescription number; medication name and dosage; administration route and/or other directions; date and refill; licensed prescriber's name; pharmacy name, address, and phone number; and name or initials of pharmacist.
- j) Over the counter medications (nonprescription) shall be brought in with the manufacturer's original label with the ingredients listed and child's name affixed to the container.
- k) All liquid medication doses shall be measured and witnessed by 2 staff members (only 1 if nurse is administering).
- l) Medications for inhalation nebulization therapy must be premixed in individual doses before administration of the medication.

- m) Jr./Sr. High School students may self-administer Acetaminophen (age appropriate dose) during school hours through the Health Services office (with parent/guardian permission). If a second dose is needed in the same day, it must be approved by the parent/guardian on the day it is requested. If over 3 doses have been needed in a one week period, the parent/guardian will be notified so that a determination can be made in regard to the need for medical follow-up.
- n) Medications must be stored in a separate locked drawer or cabinet. Medications requiring refrigeration should be refrigerated in a secure area.
- o) The parent/guardian will be responsible at the end of the treatment regime for removing from the school any unused medication which was prescribed for their child. If the parent/guardian does not pick up the medication by the end of the school year, the certified school nurse will dispose of and document that medications were discarded. Medications will be discarded in the presence of a witness.
- p) Medications sent to school by way of the student, without following the administration of medication guidelines, will not be given. The only exceptions will be emergency medications (asthma inhalers, epi-pens, etc.) with parent/guardian consent. Prescriber orders should be obtained as soon as possible.
- q) Children needing to carry inhalers are to have the inhalers properly marked. No physician order is necessary but a parental consent form should be completed. The parent/guardian will be required to initial an agreement (per med consent form) that the school district, its employees and agents will incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication. If the school nurse determines that a student is unable to administer an inhaler effectively, consenting trained staff will be asked to assist the student.

Emergency School-Supplied Epinephrine

Hamilton County Community Unit District No. 10 understands that it is crucial for children and staff with life-threatening allergies to have immediate access to emergency epinephrine when anaphylaxis occurs and before medical help arrives. In accordance with Public Act 97-0361, the Illinois Emergency Epinephrine Act, stock epinephrine will be kept in a centrally located, well labeled area in each school. The supply of Epinephrine allowed under this Act is not intended to replace epinephrine prescribed to students/staff with known allergies requiring epinephrine (with orders from a licensed prescriber).

If the preceding guidelines are not in concordance with parent's wishes, parents have the right to come and give the medication at school.

HEALTH EXAMINATIONS & IMMUNIZATIONS

In compliance with the School Code of Illinois, a student's parent(s)/guardian(s) shall present proof that the student was examined by a licensed physician, PA, or APN: (1) within one year before entering kindergarten or the first grade; (2) upon entering the sixth and ninth grades; and (3) whenever a student first enrolls in a district school, regardless of the student's grade (unless a copy of an Illinois school physical is presented, required grade appropriate, from previous Illinois school attended). A student coming to the District from another state must have a new physical completed (the only exception being the review and approval by the District's school nurse of the presented out-of-state physical that meets the Illinois requirements for a school physical examination). The Illinois school physical examination form must be completed in its entirety (including diabetes screening).

Immunizations against, and screenings for, preventable communicable diseases, as stated by the Illinois Department of Public Health guidelines, will be required. Health Services will notify parent(s)/guardian(s) prior to the requirement deadlines so that immunizations can be completed in a timely manner.

Current (within the last 395 days) physicals are also required for a student trying out for sports/cheerleading activities. The physical time-frame must cover the entire length of the sports season for that school year. Documentation must state that the student is able to participate in the activity. Remember, state required physical exams in sixth & ninth grades will meet the sports physical requirement.

Dental examinations are now required for students entering Kindergarten, second, sixth, and ninth grades before May 15 of the current school year.

Eye examinations are required for Kindergarten students and for a student in any grade if enrolling in an Illinois school for the first time.

Parent(s)/guardian(s) of children between the ages of 6 months and 6 years must provide a statement from a physician/public health official that their child was "risk-assessed" or screened for lead poisoning in accordance with State law.

Failure to comply with the above requirements by October 15 of the current school year will result in the student's exclusion from school until the required health forms are presented to the District. All new students who are first-time registrants shall have 30 days following registration to comply with the health examination regulations unless it interferes with the October 15 deadline.

A student may be exempt from this policy's requirements on religious or medical grounds. Exemption on medical grounds requires written verification (including reason for exemption) by a licensed physician, physician's assistant, or nurse practitioner. Exemption on religious grounds requires the completion of the Certificate of Religious Exemption to Required Immunizations and/or Examination Form, which includes a parent section to be filled out and a statement by the parent detailing their religious beliefs that prevent the child from receiving each required school vaccinations/examination being requested. Then, the form must be signed by a licensed physician, physician's assistant, or

nurse practitioner. The District's school authority is responsible for determining whether the written statement constitutes a valid religious objection. Exemption by parent request, simply because a parent/guardian wants the student to develop immunity by exposure, will not be acceptable as stated per Illinois Public Health guidelines.

Homeless Child

Any homeless child shall be immediately admitted even if the child or child's parent/guardian is unable to produce immunization and health records normally required for enrollment. School Board of Education policy 6:140, *Education of Homeless Children*, governs the enrollment of homeless children.

VISION & HEARING SCREENINGS

Vision and hearing screenings will begin in the fall for certain ages/groups mandated by the Illinois Department of Public Health. Vision screening is not a substitute for a complete eye and vision evaluation by an eye doctor. Your child is not required to undergo this vision screening if an optometrist or ophthalmologist has completed and signed a report form indicating that an examination has been administered within the previous 12 months and that the evaluation is on file at the school. Vision screening is not an option. If a vision examination report is not on file at the school, your child, if mandated, will be screened. The parent or legal guardian of a student may object to vision screening tests for their child on religious grounds. If a religious objection is made, a completed Illinois Certificate of Religious Exemption to Required Immunizations and/or Examination Form must be completed by the parent or legal guardian and signed by a licensed physician, physician's assistant or nurse practitioner and presented to the screening entity.

STUDENTS WITH ACUTE COMMUNICABLE DISEASES

Disposition of students with acute communicable diseases will be determined by the school nurse or the principal (with consultation by school nurse when possible). The school nurse or principal will refer to the Communicable Disease Guide issued by the Illinois Department of Public Health. In cases of concern, a physician's (or physician's assistant's) note may be required before the student returns to the school setting. The note should state words to the effect that the student is no longer considered contagious. The communicable disease guide will be used to offer education in regard to a disease whenever deemed necessary (i.e., to students, parent/guardian, staff).

HOMELESS CHILDREN

Each child of a homeless individual and each homeless youth have equal access to the same free, appropriate public education, as provided to other children and youths, including a public pre-school education. A "homeless child" is defined as provided in the McKinney Homeless Assistance Act and State law. The Superintendent or designee shall act as or appoint a Liaison for Homeless Children to coordinate this policy's implementation.

A homeless child may attend the District school that the child attended when permanently housed or in which the child was last enrolled. A homeless child living in any District school's attendance area may attend that school.

HAZARDOUS AND INFECTIOUS MATERIALS

The Superintendent shall take all reasonable measures to protect the safety of district personnel, students, and visitors on district premises from risks associated with hazardous materials, including pesticides, and infectious materials as per policy 4:160. Hazardous and/or infectious materials are any substances, or mixture of substances, that constitute a fire, explosive, reactive, or health hazard. The District pesticide program is managed by John Biggerstaff, Building & Grounds Supervisor, and he may be reached at 643-2328, extension 6107.

Any parent wishing to be notified before any pest control spraying is done in our schools must go to the school office where the child(ren) attends school and sign a notification registry. Parents will then receive notification prior to any spraying for pests within the school building. This notification will be sent out at least 2 days in advance of any spraying. If parents do not sign the registry requesting notification, they will not receive notification prior to the spray application.

ASBESTOS MANAGEMENT PLAN

As required, Hamilton County Community Unit District No. 10 initiated a program to identify and manage all asbestos containing building materials. Unit 10 has also designed a program to reduce the health risk posed by asbestos containing building materials. Unit 10 employed engineering firms to conduct the required building inspections. These building inspections resulted in the identification and evaluation of asbestos-containing building materials in some school buildings and the development of a written plan to properly manage these materials. This plan includes:

- a. the ongoing observation and maintenance of all asbestos-containing materials;
- b. the removal of asbestos materials which are judged to pose a potential health risk;
- c. the clear identification of friable asbestos building materials with warning signs;
- d. the education of school occupants concerning the location of potentially hazardous asbestos-containing materials;
- e. the training for custodial, maintenance, and service personnel concerning the proper procedures and methods to be used when cleaning, maintaining, and working around asbestos-containing materials;
- f. the regular surveillance and re-inspection of all asbestos-containing building materials in the schools in order to monitor any change in condition;
- g. provisions to record all activities related to or affecting the asbestos-containing materials within our schools. These records are kept as part of the ongoing Asbestos Management Plan.

The written Asbestos Management Plans are kept in the Office of the Board of Education, P. O. Box 369, 804 Golf Course Road, McLeansboro, Illinois, and are available for public review during normal office hours. We ask you to call 643-2328 to make an appointment to review these documents.

SEX EDUCATION

In accordance with the School Code of Illinois, Section 698.21 titled "Sex Education Act", Hamilton County Unit #10 provides instruction in sex education. The instructional process takes into account the maturity level of the student; nevertheless, pursuant to 105 IL School Code 5/27 - 9.1, no pupil shall be required to take or participate in any class or course in comprehensive sex education if his parent or guardian submits written objection thereto and refusal to take or participate in such course or program on such grounds shall not be reason for suspension or expulsion of such pupil. Nothing in this Act shall prohibit instruction in sanitation, hygiene or traditional courses in biology.

INSTRUCTION ON PREVENTION, TRANSMISSION, AND SPREAD OF AIDS/HIV

Public Law 85-680 requires instruction in grades 6 through 12 on the prevention, transmission, and spread of AIDS as a part of the health education program. Content on this subject will be included in all Unit #10 health classes. In accordance with School Board Policy 6:60, no student shall be required to take or participate in any class or course on AIDS, family life instruction, sex abuse, or organ/tissue transplantation, if his or her parent(s)/guardian(s) submits a written objection to the Building Principal. Parent(s)/guardian(s) of students in grades K-8 shall be given at least 5 days written notice before instruction on avoiding sex abuse begins. Refusal to take or participate in any such course or program shall not be reason for disciplinary action or academic penalty. Parent(s)/guardian(s) shall be provided the opportunity to preview all print and non-print materials used for instructional purposes.

ENGLISH LANGUAGE LEARNERS

The District offers opportunities for resident English Language Learners to develop high levels of academic attainment in English and to meet the same academic content and student academic achievement standards that all children are expected to attain. The superintendent or designee shall develop and maintain a program for English Language Learners as per Policy 6:160. Upon enrollment, parents are asked to complete a Home Language Survey. If the parent indicates that the child speaks a language other than English, the student will be given the WIDA Screener (2nd semester of 1st grade - 12th grade) or the WIDA MODEL (Kindergarten - 1st semester of 1st grade) within the first 30 days of enrollment.

If at any time a district attendance center an enrollment of 20 or more English Language Learners of the same language classification in Kindergarten - 12th grade, the district will establish a Transitional Bilingual Program to provide specialized instruction designed to assist students whose home language is other than English in attaining English

language proficiency. English as a Second Language (ESL) instruction includes skills development in listening, speaking, reading, and writing. Components of the program that are selected for a particular student based upon an assessment of the student's educational needs will be provided. English proficiency levels will be determined yearly through the ACCESS for ELLs assessment.

Parent Involvement

Parents/guardians of English Language Learners will be: (1) given an opportunity to provide input to the program, and (2) provided notification regarding their child's placement in, and information about, the District's English Language Learners programs.

ACCESS TO INTERNET/ELECTRONIC NETWORKS

As per policy 6:235, the District will maintain content filtering technologies that will block obscene, pornographic, or material that is inappropriate for staff and students, on computers and other computer network equipment.

SEMESTER EXAM EXEMPTION

Exemption from high school semester exams can be earned by meeting academic and attendance standards. Please refer to the Senior High School Student Handbook and the high school administration for further clarification of guidelines.

HONORS

At the end of the school year, recognition will be given for superior achievements in scholarship. To qualify for honors, the student must have a 4.0 average. A student with a 4.5 average qualifies for high honors. A student with a 5.0 average qualifies for distinguished high honors. In order to achieve this academic distinction, the attainment of honors or high honors recognition shall be based on achievement for three consecutive quarters. For students to be considered for the high school honor roll, they must take at least 4 academic subjects each quarter and semester. In addition, the honor roll will be published in the Gazette each quarter.

HONOR ROLL

At the junior high and at the high school, honor roll standards shall be set at 4.0-4.49 for honors, 4.5-4.99 for high honors, and 5.0 and above for distinguished high honors. Honor roll at the junior high and senior high levels shall include all course work.

At the high school, gold honor cords will be worn at graduation by those students maintaining a 4.5 overall average after seven semesters.

In grades 4 through 6, there will also be three honor rolls. To attain distinguished high honors, students must have an average of 5.0 or above on all letters assigned. To attain the high honor roll, students must have a combined average of 4.5-4.99 on all letters assigned. To attain the honor roll, students must have a combined average of 4.0-4.49 on all letters assigned. Physical education, music, chorus and band will not be included in the computation of the elementary honor roll.

JR. HIGH PROMOTION AND RETENTION GUIDELINES

The following guidelines will assist students and parents with an understanding of the promotion and retention process. Each semester of a graded class will receive one-half (1/2) credit for a passing grade (70% or higher). The semester credit will be based on an average of the two quarter grades. Each student will be scheduled a minimum of 7 credits of coursework for the year. A student must successfully complete a minimum of 5 ½ credits for the school year to be promoted to the next grade level. All graded classes count the same; study hall and Success do **NOT** count for credit.

IHSA CPR/AED TRAINING VIDEO

Public Act 098-0305 requires the IHSA to be given a CPR/AED training video to post on its website so that staff at IHSA-member schools can watch it. The act also indicates school districts shall notify parents and encourage them to view the video.

The following is a link to the act on the General Assembly's website:

- <http://www.ilga.gov/legislation/publicacts/fulltext.asp?Name=098-0305&GA=98>

The following is a link to the CPR/AED training video that can be accessed on the IHSA's Sports Medicine page. The video can also be accessed from the Hamilton County Unit 10 School District website.

GRADUATION REQUIREMENTS

High School graduation requirements shall be in accordance with, meet, and/or exceed state requirements and regulations. No prospective graduate from Hamilton County High School shall participate in the graduation exercises in any manner until he/she has met all of the requirements for graduation. No provisions are made for earning proficiency credit.

The requirements for graduation are twenty-four and one-half units of credit. Students are required to take four academic subjects each semester. Band, chorus, and physical education are not considered academic courses. Credits earned must account for the following:

1. Four credits of English; two years must be writing intensive courses.
2. Three credits of Mathematics (one credit must be Algebra I and one credit must be Geometry).
3. Two credits of Science.
4. Two and one-half credits of Social Studies (one must be American History and one must be Civics). Students must pass both the Illinois and U.S. Constitutions taken in civics class and an examination on patriotism and principles of representative government, proper use of the flag, methods of voting, and the Pledge of Allegiance.
5. Enrolled in Physical Education (while in attendance at HCHS unless excluded for health reasons or under policy 7:260).
6. One-half credit of consumer education.
7. One-half credit of Health Education.
8. One credit of Foreign Language, Fine Arts, or Vocational Education.
9. One credit of Computer Education.
10. Twelve and one-half units of credit must be made up of courses other than Band, Chorus, and Physical Education beginning with the class of 2017.
11. All students are required to take the SAT during high school when applicable, unless "opted" out by a parent or guardian.

HIGH SCHOOL CREDIT ALTERNATIVES

In order to serve in-school and out-of-school youths and adults who want a high school diploma, the following options may be considered:

Correspondence Credit

A maximum of two units of correspondence credit may be counted toward meeting the above requirements if approved by the high school principal. The factors considered before granting approval are:

1. Correspondence courses are taken after the student's third year of high school attendance.
2. The credits are needed in order for the student to graduate with his/her class.
3. The credits needed cannot be obtained through the regular school program due to time restraints.
4. No alternative credits will be included on a student's GPA or will be included for honor roll calculations, i.e. computer based high school credits, summer school, night school or correspondence courses.

Credit Recovery

Recognizing that Credit Recovery is not in competition with the local school district and that it offers an alternative for those who cannot or will not attend the regular public schools, the high school principal may approve credits earned in Credit Recovery and count them toward meeting the above graduation requirements. In doing so, the following factors shall be considered:

1. The percentage of attendance at Hamilton County Senior High School during the student's senior year. A minimum of three periods per day is required.
2. The number of units earned at Hamilton County Senior High School. The fewer the number of credits earned in the regular program the less likely the student could earn a diploma from Hamilton County Senior High School unless the student's course of study had received prior approval.
3. The age of the student. Special consideration on an individual basis shall be given to students over the age of twenty-one (21) who attended Hamilton County Sr. High School but failed to graduate.

Summer School Credit

Credit that would count toward graduation may be earned in a summer school program. Because a student may have to attend a summer school program at another school, these credits must be approved in advance by the high school principal.

PARTICIPATION IN GRADUATION CEREMONIES

As described in Policy 6:300, a student with a disability whose Individualized Education Program (IEP) prescribes special education, transition planning, transition services, and related services beyond the student's four years of high school, and who has completed four years of high school by the end of the school year, will be allowed to participate in the graduation ceremony of the student's high school graduating class and receive a certificate of completion.

A certificate of completion serves to acknowledge that a student with a disability has completed four years of high school. It is not the equivalent of a high school diploma, and it does not relate to the student's progress on meeting District graduation requirements.

If a student described above desires to participate in the graduation ceremony, the student or the student's parent(s) must notify the Superintendent in writing at least (60) days prior to the date of the graduation ceremony. Failure to timely notify the Superintendent may result in denial of participation. If the student has reached the age of 18 and is not under court-ordered guardianship as a disabled adult, the decision as to whether to participate in the graduation ceremony shall be made by the student.

Nothing in the policy and procedures prohibits the Superintendent or designee from prohibiting a student from participating in the graduation ceremony of his/her graduating class or a subsequent graduating class for other reasons (such as disciplinary sanctions or non-payment of fees) which would disqualify students without disabilities from participating in the graduation ceremony. A student's receipt of a certificate of completion will have no bearing on whether services provided pursuant to the student's IEP are terminated or continued.

STUDENT DRESS

(Junior/Senior High School)

Young men and women should recognize the importance of being well groomed at all times. Clothing need not be expensive to be clean, neat and attractive. One of the most important factors in being well groomed is wearing clothing appropriate for the occasion. Dress that may be proper at home or on the beach may be out of place at school.

Clothing shall not be hazardous to the health and safety of the students or disruptive to the educational program of the school. Any extremes of dress which detract from the orderliness of the school program by bringing undue attention to the individual are, of course, inappropriate. In order to provide parents, students, and teachers guidelines as to the District's expectations, the following shall be considered inappropriate:

1. Short shorts - those with less than a four and one-half inch inseam regardless of any undergarment worn.
2. Extremely short skirts or dresses - for example: mini or tennis skirts. Length of dresses or skirts must be within six inches of the middle of the knee.
3. Items of clothing which contain printed messages, logos, and/or activity which are deemed offensive or condone an activity which is socially unacceptable or unwise (i.e. alcohol, drugs, cigarettes, profanity, etc.).
4. Bare midriff clothing, "see-through mesh" attire, undershirts, half shirts, or split-side shirts.
5. Caps, hats, or sunglasses while in the buildings.
6. Sleeveless tops and pants not worn at the natural waist.
7. "Bicycle" or very tight fitting pants made of lycra and/or similar materials.
8. "Razor cut" jeans which have cutting(s) in areas which might offensively expose various parts of the anatomy. Jeans with holes above the knee must be within 6" of the middle of the knee. Holes above that height must be patched or have clothing (not undergarments) visible underneath.
9. Bill-fold type chains of any size will not be permitted.
10. "Roller Shoes" of any type will not be permitted.
11. Shirts that show cleavage, not more than 3 1/2" from the collar bone.
12. Students will refrain from graffiti or other writing on their skin or clothing with markers/pens, etc.

Students are not to wear the above to school. Those doing so will be asked to correct the problem immediately or be sent home to change. The time missed as a result will be considered unexcused. All classrooms are air-conditioned; therefore, it should not create a hardship on anyone to wear adequate clothing.

SENIOR HIGH DRESS FOR COMMENCEMENT

Like parents, we are very proud of our graduates and want the commencement exercises to reflect that pride. These are important occasions and students, who wish to participate, must dress appropriately. All senior students are required to wear appropriate attire to graduation. It is expected that male and female students will wear appropriate business dress attire, such as dress slacks, dress shirts with a collar, and/or dress or a blouse and slacks or skirt, and dress shoes under their gowns. Students participating in the commencement ceremony may ONLY wear the school issued tassel and cords. NO student will be permitted to participate wearing jeans, shorts, tennis shoes, boots, or flip flop sandals. Decorations to the cap may only be on the TOP of the cap. No decorations may hang down from the top of the cap. The cap must sit flat on the graduate's head.

B U S C O N D U C T

While the law requires the school district to furnish transportation to students that live more than one and a half miles from school, it does not relieve parents of students from the responsibility of supervision until such time as the child boards the bus in the morning and after the child leaves the bus at the end of the school day. Once a child boards the bus, and only at that time, does he or she become the responsibility of the school district. Such responsibility shall end when the child is delivered to the regular bus stop at the close of the school day. In view of the fact that a bus is an extension of the classroom, the Board shall require children to conduct themselves on the bus in a manner consistent with established standards for classroom behavior.

Each year, millions of boys and girls are transported to and from school safely. This is only possible because they understand how to act safely in the school bus. Everyone has a part in helping the driver maintain order—the classroom teacher, parents, and last but not least, the riders themselves. The following list of safety commandments, although far from complete, will provide a basis for safe conduct.

1. Be on time at the designated school bus stop. The driver has a schedule to keep, so he/she cannot wait for you; if thirty students each delay thirty seconds, the schedule will be fifteen minutes late.
2. Be careful in approaching the place where the bus stops. Walk on the left side facing on-coming traffic. Do not move toward the bus until the bus has been brought to a complete stop. This is particularly important during icy weather, because the bus might skid as it is stopping for you. If it is necessary to cross the highway, proceed to a point at least ten (10) feet in front of the bus, then WAIT for a SIGNAL from the bus driver permitting you to cross.
3. Stay off the road, out of danger of passing vehicles and flying stones, at all times while waiting for the school bus.
4. Board in an orderly fashion; do not crowd, push or shove, and always use the handrail. Go quickly and directly to your seat.
5. Stay in your seat while the bus is in motion.
6. Keep your voice low; remember that loud talking, laughing, or unnecessary confusion diverts the driver's attention and may result in a serious accident.
7. Keep your head, arms, and hands inside the bus at all times. Do not throw anything out of the bus windows.
8. Keep your feet, books, packages, coats and other objects out of the aisle, so that students will not trip over them—musical instruments and other large packages should be placed under the seat.
9. Be absolutely quiet when approaching a railroad crossing stop.
10. If you detect any approaching danger that you believe the driver is not aware of, don't hesitate to warn the driver—sometimes the driver cannot see in all directions. If you see that a car is not going to stop while he is loading or unloading, or if some vehicle is passing on the right, let the driver know about it quickly and calmly.
11. Be alert in the event of a road emergency or danger signal from the driver. Remain seated in the bus until instructions are given by the driver.
12. Treat bus equipment as you would valuable furniture in your own home; damage to seats, etc., is unnecessary, costly and wasteful.
13. Help keep the bus clean and sanitary; this means no eating is allowed on the bus.
14. Carry no animals onto the bus.
15. Be courteous to fellow pupils and the bus driver.
16. Help look after the safety and comfort of smaller children.
17. Do not ask the driver to stop at places other than the regular bus stop; he/she is not permitted to do this except by proper authorization from a school official or parent.
18. Observe the same safety precautions when the bus stops; get off the bus quietly and quickly, do not crowd, push or shove, always use the hand rail. If it is necessary to

cross the highway, proceed to a point at least ten (10) feet in front of the bus, then WAIT for a SIGNAL from the bus driver permitting you to cross.

19. Observe these same rules and regulations on other school sponsored trips. Respect the wishes of the chaperone appointed by the school.

The bus driver shall have the primary responsibility for discipline on his/her bus. However, in cases when a child does not conduct themselves properly on a bus, such instances are to be brought to the attention of the building principal by the bus driver. The building principal will inform the parents immediately of the misconduct and request their cooperation in checking the child's behavior. Children who become a serious disciplinary problem on the school bus may have their riding privileges suspended. In such cases, the parents of the children involved become responsible for seeing that their children get to and from school safely.

TRANSPORTATION POLICY

Unit #10 bus drivers have been directed to pick up/drop off students only to the child's home or at a regularly scheduled alternate pick up/drop off site designated by the parent. A concern is raised to the dangers of transporting to sites other than the home because of the increased likelihood of miscommunication. That situation provides too many opportunities for error which risks the safety of children. Our responsibility is to provide transportation between the home and the school. Parents should take note that all Unit #10 bus drivers have been directed to require a "special pink transportation slip" from any child boarding their bus that is not a regular bus student. That pink transportation permit can only be issued by the building principal of your child's school after specific communication (preferably in writing from the parent). **These pink transportation slips are to be used on rare occasions when a family emergency requires assistance. At no time is a pink trip ticket to be provided for a child going home with a friend or any other form of request based on convenience.**

EMERGENCY TRANSPORTATION

Since the fall of 1986, Unit #10 bus drivers have been directed to deliver students only to the child's home, bus stop or at a regularly scheduled alternate emergency site designated by the parent. This location does not have to be the same as the morning pick-up in instances where students routinely go to a babysitter.

While Unit #10 accommodates routine and regularly scheduled deliveries, a concern is raised to the dangers of transporting to sites other than the home because of the increased likelihood of miscommunication. That situation provides too many opportunities for error which risks the safety of children. Our responsibility is to provide transportation between the home and the school. Parents should take note that all Unit #10 bus drivers have been directed to require a "special pink transportation slip" from any child boarding their bus that is not a regular bus student. That pink transportation permit can only be issued by the building principal of your child's school after specific communication (preferably in writing from the parent). These pink transportation slips are to be used on rare occasions when a family emergency requires assistance. **At no time is a pink trip ticket to be provided for a child going home with a friend or any other form of request based on convenience.**

BEGINNING SCHOOL AGE

In order to be eligible for entrance into the Hamilton County Unit No. 10 kindergarten, a child must be five years of age on or before September 1 of the year in which they intend to enroll in kindergarten as directed by School Code 105 ILCS 5/10-20.12. For a child whose parents elect not to send a child to kindergarten, the same entrance requirements for kindergarten will be in affect except that the child must have reached his or her sixth birthday on the prescribed dates. A person enrolling the student must provide a certified copy of the student's birth certificate or other reliable proof.

ELEMENTARY PROMOTION STANDARDS

Elementary (K-6th grade) promotion requirements shall be in accordance with, meet, and/or exceed state and federal requirements and regulations and Board Policy 6:280.

Student retention at the elementary level shall be based on the number of failing grades received throughout the school year. The subjects of reading, math, science and social studies are given major consideration in deciding whether or not a student shall be passed to the next grade level. All other subjects will be considered in the promotion/retention process if there is a reasonable doubt as to whether a child should be retained.

If a student receives four or more failing grades during the first two quarters, a letter shall be sent to parents expressing a concern about the child's academic progress and encouraging parent/teacher conferences. If at the end of the third quarter a student has accumulated six or more failing grades, a letter shall be sent to parents expressing the possibility of the child repeating the same grade. Parent/teacher/principal conferences will be recommended to discuss the possibility of retention.

During the first week of May, a staff meeting will be held to discuss whether retention is needed for students at risk of failing. Then the principal, with input from teachers and parents, shall determine whether to retain a student or provide appropriate remediation considering the following factors: (1) grades; (2) test results; (3) ability; (4) attendance; and (5) available remediation assistance.

REPORT CARDS

Four grade reports will be issued to parents during the school year. Report cards are issued to students the week following the end of each quarter. Parents are encouraged to not wait until report cards are issued to check on academic progress. Check frequently with your child about how class work is going. Also, please feel free to call or come in to confer with your child's teacher. We do ask that you phone the school to set up a convenient time that will not disrupt class work. Parents may also track their child's progress by accessing the parent portal in Lumen.

Explanation of Grades

All grades for students in the first through the twelfth grades will be as follows:

100	= A+	86-91	= B	77	= C-	0-69	= F
94-99	= A	85	= B-	76	= D+		
93	= A-	84	= C+	71-75	= D		
92	= B+	78-83	= C	70	= D-		

STUDENT BEHAVIOR (7:190)

This policy becomes effective and replaces the current policy on *Student Discipline* on the first student attendance day of the 2016-2017 school year.

Student Behavior (formerly known as Student Discipline)

The goals and objectives of this policy are to provide effective discipline practices that: (1) ensure the safety and dignity of students and staff; (2) maintain a positive, weapons-free, and drug-free learning environment; (3) keep school property and the property of others secure; (4) address the causes of a student's misbehavior and provide opportunities for all individuals involved in an incident to participate in its resolution; and (5) teach students positive behavioral skills to become independent, self-disciplined citizens in the school community and society.

When and Where Conduct Rules Apply

A student is subject to disciplinary action for engaging in *prohibited student conduct*, as described in the section with that name below, whenever the student's conduct is reasonably related to school or school activities, including, but not limited to:

1. On, or within sight of, school grounds before, during, or after school hours or at any time;
2. Off school grounds at a school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school;
3. Traveling to or from school or a school activity, function, or event; or
4. Anywhere, if the conduct interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including, but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.

Prohibited Student Conduct

The school administration is authorized to discipline students for gross disobedience or misconduct, including but not limited to:

1. Using, possessing, distributing, purchasing, or selling tobacco or nicotine materials, including without limitation, electronic cigarettes.
2. Using, possessing, distributing, purchasing, or selling alcoholic beverages. Students who are under the influence of an alcoholic beverage are not permitted to attend school or school functions and are treated as though they had alcohol in their possession.
3. Using, possessing, distributing, purchasing, selling, or offering for sale:
 - a. Any illegal drug or controlled substance, or cannabis (including marijuana, hashish, and medical cannabis unless the student is authorized to be administered a medical cannabis infused product under *Ashley's Law*).
 - b. Any anabolic steroid unless it is being administered in accordance with a physician's or licensed practitioner's prescription.
 - c. Any performance-enhancing substance on the Illinois High School Association's most current banned substance list unless administered in accordance with a physician's or licensed practitioner's prescription.
 - d. Any prescription drug when not prescribed for the student by a physician or licensed practitioner, or when used in a manner inconsistent with the prescription or prescribing physician's or licensed practitioner's instructions. The use or possession of medical cannabis, even by a student for whom medical cannabis has been prescribed, is prohibited unless the student is authorized to be administered a medical cannabis infused product under *Ashley's Law*.
 - e. Any inhalant, regardless of whether it contains an illegal drug or controlled substance: (a) that a student believes is, or represents to be capable of, causing intoxication, hallucination, excitement, or dulling of the brain or nervous system; or (b) about which the student engaged in behavior that would lead a reasonable person to believe that the student intended the inhalant to cause intoxication, hallucination, excitement, or dulling of the brain or nervous system. The prohibition in this section does not apply to a student's use of asthma or other legally prescribed inhalant medications.
 - f. Any substance inhaled, injected, smoked, consumed, or otherwise ingested or absorbed with the intention of causing a physiological or psychological change in the body, including without limitation, pure caffeine in tablet or powdered form.
 - g. Look-alike or counterfeit drugs, including a substance that is not prohibited by this policy, but one: (a) that a student believes to be, or represents to be, an illegal drug, controlled substance, or other substance that is prohibited by this policy; or (b) about which a student engaged in behavior that would lead a reasonable person to believe that the student expressly or impliedly represented to be an illegal drug, controlled substance, or other substance that is prohibited by this policy.

- h. Drug paraphernalia, including devices that are or can be used to: (a) ingest, inhale, or inject cannabis or controlled substances into the body; and (b) grow, process, store, or conceal cannabis or controlled substances.

Students who are under the influence of any prohibited substance are not permitted to attend school or school functions and are treated as though they had the prohibited substance, as applicable, in their possession.

4. Using, possessing, controlling, or transferring a *weapon* as that term is defined in the **Weapons** section of this policy, or violating the **Weapons** section of this policy.
5. Using or possessing an electronic paging device. Using a cellular telephone, video recording device, personal digital assistant (PDA), or other electronic device in any manner that disrupts the educational environment or violates the rights of others, including using the device to take photographs in locker rooms or bathrooms, cheat, or otherwise violate student conduct rules. Prohibited conduct specifically includes, without limitation, creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction of oneself or another person through the use of a computer, electronic communication device, or cellular phone. Unless otherwise banned under this policy or by the Building Principal, all electronic devices must be kept powered-off or silenced and out-of-sight during the regular school day unless: (a) the supervising teacher grants permission; (b) use of the device is provided in a student's individualized education program (IEP); (c) it is used during the student's lunch period, or (d) it is needed in an emergency that threatens the safety of students, staff, or other individuals.
6. Using or possessing a laser pointer unless under a staff member's direct supervision and in the context of instruction.
7. Disobeying rules of student conduct or directives from staff members or school officials. Examples of disobeying staff directives include refusing a District staff member's request to stop, present school identification, or submit to a search.
8. Engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, altering report cards, and wrongfully obtaining test copies or scores.
9. Engaging in hazing or any kind of bullying or aggressive behavior that does physical or psychological harm to a staff person or another student, or urging other students to engage in such conduct. Prohibited conduct specifically includes, without limitation, any use of violence, intimidation, force, noise, coercion, threats, stalking, harassment, sexual harassment, public humiliation, theft or destruction of property, retaliation, hazing, bullying, bullying using a school computer or a school computer network, or other comparable conduct.
10. Engaging in any sexual activity, including without limitation, offensive touching, sexual harassment, indecent exposure (including mooning), and sexual assault. This does not include the non-disruptive: (a) expression of gender or sexual orientation or preference, or (b) display of affection during non-instructional time.
11. Teen dating violence, as described in Board policy 7:185, *Teen Dating Violence Prohibited*.
12. Causing or attempting to cause damage to, or stealing or attempting to steal, school property or another person's personal property.
13. Entering school property or a school facility without proper authorization.
14. In the absence of a reasonable belief that an emergency exists, calling emergency responders (such as calling 911); signaling or setting off alarms or signals indicating the presence of an emergency; or indicating the presence of a bomb or explosive device on school grounds, school bus, or at any school activity.
15. Being absent without a recognized excuse; State law and Board of Education policy regarding truancy control will be used with chronic and habitual truant.
16. Being involved with any public school fraternity, sorority, or secret society, by: (a) being a member; (b) promising to join; (c) pledging to become a member; or (d) soliciting any other person to join, promise to join, or be pledged to become a member.
17. Being involved in gangs or gang-related activities, including displaying gang symbols or paraphernalia.
18. Violating any criminal law, including but not limited to, assault, battery, arson, theft, gambling, eavesdropping, vandalism, and hazing.
19. Making an explicit threat on an Internet website against a school employee, a student, or any school-related personnel if the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.
20. Operating an unmanned aircraft system (UAS) or drone for any purpose on school grounds or at any school event unless granted permission by the Superintendent or designee.
21. Engaging in any activity, on or off campus, that interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to,

conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.

For purposes of this policy, the term *possession* includes having control, custody, or care, currently or in the past, of an object or substance, including situations in which the item is: (a) on the student's person; (b) contained in another item belonging to, or under the control of, the student, such as in the student's clothing, backpack, or automobile; (c) in a school's student locker, desk, or other school property; or (d) at any location on school property or at a school-sponsored event.

Efforts, including the use of positive interventions and supports, shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or psychological harm to someone else. The Superintendent or designee shall ensure that the parent/guardian of a student who engages in aggressive behavior is notified of the incident. The failure to provide such notification does not limit the Board's authority to impose discipline, including suspension or expulsion, for such behavior.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

Disciplinary Measures

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out voluntarily due to behavioral or academic difficulties. Potential disciplinary measures include, without limitation, any of the following:

1. Notifying parent(s)/guardian(s).
2. Disciplinary conference.
3. Withholding of privileges.
4. Temporary removal from the classroom.
5. Return of property or restitution for lost, stolen, or damaged property.
6. In-school suspension. The Building Principal or designee shall ensure that the student is properly supervised.
7. After-school study or Saturday study provided the student's parent/guardian has been notified. If transportation arrangements cannot be agreed upon, an alternative disciplinary measure must be used. The student must be supervised by the detaining teacher or the Building Principal or designee.
8. Community service with local public and nonprofit agencies that enhances community efforts to meet human, educational, environmental, or public safety needs. The District will not provide transportation. School administration shall use this option only as an alternative to another disciplinary measure, giving the student and/or parent/guardian the choice.
9. Seizure of contraband; confiscation and temporary retention of personal property that was used to violate this policy or school disciplinary rules.
10. Suspension of bus riding privileges in accordance with Board policy 7:220, *Bus Conduct*.
11. Out-of-school suspension from school and all school activities in accordance with Board policy 7:200, *Suspension Procedures*. A student who has been suspended shall also be restricted from being on school grounds and at school activities.
12. Expulsion from school and all school activities for a definite time period not to exceed two calendar years in accordance with Board policy 7:210, *Expulsion Procedures*. A student who has been expelled shall also be restricted from being on school grounds and at school activities.
13. Transfer to an alternative program if the student is expelled or otherwise qualifies for the transfer under State law. The transfer shall be in the manner provided in Article 13A or 13B of the School Code.
14. Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, including but not limited to, illegal drugs (controlled substances), *look-alikes*, alcohol, or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension and expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion. Students enrolled in the District's State-funded preschool program(s) may be temporarily removed or transitioned to a new program in accordance with federal and State law. State law prohibits the expulsion of students from the program(s).

Corporal punishment is prohibited. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

Isolated Time Out, Time Out, and Physical Restraint

Neither isolated time out, time out, nor physical restraint shall be used to discipline or punish a student. These methods are only authorized for use as permitted in 105 ILCS 5/10-20.33, State Board of Education rules (23 Ill.Admin.Code §§ 1.280, 1.285), and the District's procedure(s).

Weapons

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of at least one calendar year but not more than two calendar years:

1. A *firearm*, meaning any gun, rifle, shotgun, or weapon as defined by Section 921 of Title 18 of the United States Code (18 U.S.C. § 921), firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act (430ILCS65/), or firearm as defined in Section 24-1 of the Criminal Code of 1961 (720 ILCS 5/24-1).
2. A knife, brass knuckles, or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including *look-alikes* of any *firearm* as defined above.

The expulsion requirement under either paragraph one or two above may be modified by the Superintendent, and the Superintendent's determination may be modified by the Board on a case-by-case basis. The Superintendent or designee may grant an exception to this policy, upon the prior request of an adult supervisor, for students in theatre, cooking, ROTC, martial arts, and similar programs, whether or not school-sponsored, provided the item is not equipped, nor intended, to do bodily harm.

This policy's prohibitions concerning weapons apply regardless of whether: (1) a student is licensed to carry a concealed firearm, or (2) the Board permits visitors, who are licensed to carry a concealed firearm, to store a firearm in a locked vehicle in a school parking area.

Re-Engagement of Returning Students

The Superintendent or designee shall maintain a process to facilitate the re-engagement of students who are returning from an out-of-school suspension, expulsion, or an alternative school setting. The goal of re-engagement shall be to support the student's ability to be successful in school following a period of exclusionary discipline and shall include the opportunity for students who have been suspended to complete or make up work for equivalent academic credit.

Required Notices

A school staff member shall immediately notify the office of the Building Principal in the event that he or she: (1) observes any person in possession of a firearm on or around school grounds; however, such action may be delayed if immediate notice would endanger students under his or her supervision, (2) observes or has reason to suspect that any person on school grounds is or was involved in a drug-related incident, or (3) observes a battery committed against any staff member. Upon receiving such a report, the Building Principal or designee shall immediately notify the local law enforcement agency, Ill. Dept. of State Police (ISP), and any involved student's parent/guardian. *School grounds* includes modes of transportation to school activities and any public way within 1000 feet of the school, as well as school property itself.

Delegation of Authority

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment, or in-school suspension, that is appropriate and in accordance with the policies and rules on student discipline. Teachers, other certificated [licensed] educational employees, and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers may temporarily remove students from a classroom for disruptive behavior.

The Superintendent, Building Principal, or Assistant Building Principal, is authorized to impose the same disciplinary measures as teachers and may suspend students guilty of gross disobedience or misconduct from school (including all school functions) and from riding the school bus, up to ten consecutive school days, provided the appropriate procedures are followed. The Board may suspend a student from riding the bus in excess of ten school days for safety reasons.

Student Handbook

The Superintendent, with input from the parent-teacher advisory committee, shall prepare disciplinary rules implementing the District's disciplinary policies. These disciplinary rules shall be presented annually to the Board for its review and approval.

A student handbook, including the District disciplinary policies and rules, shall be distributed to the students' parents/guardians within 15 days of the beginning of the school year or a student's enrollment. 1.18.22

Misconduct by Students with Disabilities

The District shall comply with the provisions of the Individuals with Disabilities Education Act (IDEA) when disciplining IDEA eligible students. Prior to expelling a special education student, a

Manifestation Determination Review (MDR) shall be held to determine whether the conduct is a manifestation of the student's disability. The findings of the MDR shall be provided to the Board of Education. No student may be expelled if the conduct alleged is a manifestation of his/her disability. Any IDEA eligible student whose gross disobedience or misconduct is not a manifestation of the student's disability may be disciplined in accordance with district policies, except that such disabled student shall continue to receive educational services as provided in the IDEA during such period of expulsion.

Nothing shall prohibit a special education student from being suspended for an aggregate of 10 school days per school year, regardless of whether the student's conduct is a manifestation of his or her disability.

An IDEA eligible student may be temporarily excluded from school by court order or by order of a duly appointed State of Illinois hearing officer if the district demonstrates that maintaining the student in his or her current placement is substantially likely to result in injury to the student or others.

An IDEA eligible student who has carried a weapon to school or to a school function or who knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function may be placed in an appropriate interim alternative educational setting for a period not to exceed 45 school days. For purposes of this policy, a weapon is defined as a device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury. The term does not include a pocketknife with a blade under 2 1/2 inches in length. Also, for purposes of this policy, a drug is any controlled substance identified under schedules I, II, III, IV or V in section 202 of the Controlled Substances Act, 20 U. S. C. 812.

DISCIPLINE PROCEDURES FOR FIGHTING

Hamilton County High School believes that harmonious relations can be developed among all students. Our school promotes positive ways of handling disagreements with other students. These positive ways include talking out the problem with the other student(s), a counselor, teacher, or an administrator.

Students who choose to resort to violence to solve problems with other students will be dealt with in a severe manner. Fighting is defined as an exchange of physical contact (hitting, kicking, slapping, pushing, or shoving). In addition to penalties set forth in this handbook, students involved in a fight on school ground or at a school activity may be transported to the McLeansboro Police Department by a police officer and may be charged criminally.

1. If deemed necessary, the police will be involved.
2. Students involved will have the opportunity to explain what happened.
3. Students who are deemed by the administration to have participated in the violent act will be punished severely. Students are expected to walk away and/or seek help from a staff member.

Hamilton County High School believes that the educational process cannot be disrupted by negative behavior. The school is for ALL students. The school encourages the development of a positive atmosphere where learning can take place. Administration reserves the right to review each individual situation before determining the disciplinary action that is required.

STUDENT SEARCHES

The Board of Education recognizes that searches of students, their personal belongings, their vehicles, or their lockers may be necessary in order to maintain order and discipline in the school and that there may be seizure of alleged, unauthorized, or contraband material. The Board of Education hereby states its intention to comply with the applicable law concerning the search of students. It hereby sanctions such searches which are reasonable under all the circumstances of the search. Policy 7:140 has been adopted to authorize such searches by school personnel. However, school personnel shall not conduct a strip search, body cavity search, or a search which requires the student to remove clothing except as specified in the policy.

ELECTRONIC DEVICES (POLICY 7:190-AP5)

Electronic Signaling Devices

Students may not use or possess electronic signaling (paging) devices or two-way radios on school property at any time, unless the Building Principal specifically grants permission.

Cell Phones and Other Electronic Devices

The possession and use of smartphones, cell phones and other electronic devices, other than paging devices and two-way radios, are subject to the following rules:

1. They must be kept out of sight and in an inconspicuous location, such as a backpack, purse, or locker.
2. They must be turned **off** during the regular school day unless the supervising teacher grants permission for them to be used or if needed during an emergency.
3. They may not be used in any manner that will cause disruption to the educational environment or will otherwise violate student conduct rules.
4. They may not be used for creating, sending, sharing, viewing, receiving, or possessing *indecent visual depictions* as defined in State law, i.e., *sexting*. Possession is prohibited regardless of whether the depiction violates State law. Any cellular phone or electronic device may be searched upon reasonable suspicion of sexting or other violations of policy. All sexting violations will require school administrators to follow student discipline policies in addition to contacting the police and reporting suspected child abuse or neglect when appropriate.

Electronic study aids may be used during the school day if:

1. Use of the device is provided in the student's IEP, or
2. Permission is received from the student's teacher; e.g., BYOT programs.

Examples of electronic devices that are used as study aids include devices with audio or video recording, iPods, some cellular telephones, smartphones, laptop computers, and tablet computers or devices, e.g., iPads.

Examples of electronic devices that are **not** used as study aids include: hand-held electronic games, CD players, MP3 players/iPods used for a purpose other than a study aid, global positioning systems (GPS), radios, and cellular telephones (with or without cameras), used for a purpose other than a study aid.

The use of technology as educational material in a curriculum-based program is not a necessity but a privilege, and a student does not have an absolute right to use his or her electronic device while at school. Using technology as a study aid must always follow the established rules for the BYOT program. Using technology at all other times must always follow the established rules for cell phones and other electronic devices at school.

The School District is not responsible for the loss, damage, or theft of any electronic device brought to school.

NOTICE OF SURVEILLANCE

The District does use surveillance cameras in the use of school security, discipline, and behavior management.

The Family Educational Rights and Privacy Act (FERPA) and the Illinois Student Records Act afford parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's school records. They are:

The right to inspect and copy the student's education records within 15 school days of the day the District receives a request for access.

The degree of access a student has to his or her records depends on the student's age. Students less than 18 years of age have the right to inspect and copy only their permanent record. Students 18 years of age or older have access and copy rights to both permanent and temporary records. Parents/guardians or students should submit to the Building Principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The Principal will make arrangements for access and notify the parent(s)/guardian(s) or student of the time and place where the records may be inspected. The District charges \$.35 per page for copying but no one will be denied their right to copies of their records for inability to pay this cost.

These rights are denied to any person against whom an order of protection has been entered concerning a student (105 ILCS 5/10-22.3c and 10/5a, and 750 ILCS 60/214(b)(15)).

The right to have one or more scores received on college entrance examinations removed from the student's academic transcript.

Parents/guardians or eligible students may have one or more scores on college entrance exams deleted from their student's academic transcript. Students often take college entrance examinations multiple times to improve their results. Test publishers provide the results from each examination taken to the student's high school. Schools must include each of these scores on the student's transcript, which may result in the academic transcript having multiple scores from a single college entrance exam. A parent/guardian or eligible student may not want certain scores to be sent to postsecondary institutions to which the student applies. The District will remove scores on college entrance examinations upon the written request of the parent/guardian or eligible student stating the name of each college entrance examination that is the subject of the request and the dates of the scores that are to be removed.

The right to request the amendment of the student's education records that the parent(s)/guardian(s) or eligible student believes are inaccurate, irrelevant, or improper.

Parents/guardians or eligible students may ask the District to amend a record that they believe is inaccurate, irrelevant, or improper. They should write the Building Principal or the Official Records Custodian, clearly identify the record they want changed, and specify the reason.

If the District decides not to amend the record as requested by the parents/guardians or eligible student, the District will notify the parents/guardians or eligible student of the decision and advise him or her of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent(s)/guardian(s) or eligible student when notified of the right to a hearing.

The right to permit disclosure of personally identifiable information contained in the student's education records, except to the extent that the FERPA or Illinois School Student Records Act authorizes disclosure without consent.

Disclosure without consent is permitted to school officials with legitimate educational or administrative interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or any parent(s)/guardian(s) or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. Individual board members

do not have a right to see student records merely by virtue of their office unless they have a current demonstrable educational or administrative interest in the student and seeing his or her record(s) would be in furtherance of the interest.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law. Before information is released to these individuals, the parents/guardians will receive prior written notice of the nature and substance of the information, and an opportunity to inspect, copy, and challenge such records.

When a challenge is made at the time the student's records are being forwarded to another school to which the student is transferring, there is no right to challenge: (1) academic grades, or (2) references to expulsions or out-of-school suspensions.

Disclosure is also permitted without consent to: any person for research, statistical reporting or planning, provided that no student or parent(s)/guardian(s) can be identified; any person named in a court order; appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons; and juvenile authorities when necessary for the discharge of their official duties who request information before adjudication of the student.

The right to a copy of any school student record proposed to be destroyed or deleted.

The permanent record is maintained for at least 60 years after the student transfers, graduates, or permanently withdraws. The temporary record is maintained for at least 5 years after the student transfers, graduates, or permanently withdraws. Temporary records that may be of assistance to a student with a disability who graduates or permanently withdraws, may, after 5 years, be transferred to the parent(s)/guardian(s) or to the student, if the student has succeeded to the rights of the parent(s)/guardian(s). Student temporary records are reviewed every 4 years or upon a student's change in attendance centers, whichever occurs first.

The right to prohibit the release of directory information concerning the parent's/guardian's child.

Throughout the school year, the District may release directory information regarding students, limited to: Name; Address; Gender; Grade level; Birth date and place; Parent(s)/guardian(s)' names, addresses, electronic mail addresses, and phone numbers; Photographs, videos, or digital images used for informational or news-related purposes (whether by a media outlet or by the school) of a student participating in school or school-sponsored activities, organizations, and athletics that have appeared in school publications, such as yearbooks, newspapers, or sporting or fine arts programs; Academic awards, degrees, and honors; Information in relation to school-sponsored activities, organizations, and athletics; Major field of study; Period of attendance in school.

Any parent guardian or eligible student may prohibit the release of any or all of the above information by delivering a written objection to the building principal within 30 days of the date of this notice. No directory information will be released within this time period, unless the parents/guardians or eligible student is specifically informed otherwise.

No photograph highlighting individual faces is allowed for commercial purposes, including solicitation, advertising, promotion or fundraising without the prior, specific, dated and written consent of the parent or student, as applicable; and no image on a school security video recording shall be designated as directory information.

The right to request that military recruiters or institutions of higher learning not be granted access to your secondary school student's name, address, and telephone numbers without your prior written consent.

Federal law requires a secondary school to grant military recruiters and institutions of higher learning, upon their request, access to secondary school students' names, addresses, and telephone numbers, unless the parents/guardians, or student who is 18 years of age or older, request that the information not be disclosed without prior written consent. If you wish to exercise this option, notify the Building Principal where your student is enrolled for further instructions.

The right contained in this statement: No person may condition the granting or withholding of any right, privilege or benefits or make as a condition of employment, credit, or insurance the securing by any individual of any information from a student's temporary record which such individual may obtain through the exercise of any right secured under State law.

The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.

The name and address of the Office that administers FERPA is: Family Policy Compliance Office; U.S. Department of Education; 400 Maryland Avenue, SW; Washington DC 20202-4605 Nov. 2021

The notice will tell parents and students the specific or approximate dates during the school year when these activities are scheduled. Then as the date of each scheduled activity approaches, the district will send parents and students a notice reminding them of the scheduled activity so that they can opt out, if desired.

MEDICAID PROVIDER SERVICES

EPSDT (Early Periodic Screening, Diagnosis and Treatment) is a federal mandate of the States to provide early intervention/prevention services to children, age birth through 18. The services are allied health care services provided by the district's pupil personnel or by allied professionals under contract with the district. As an **EPSDT Medicaid Provider**, the District is entitled to collect federal Medicaid funds to share in the cost of providing health care services to the children enrolled in the school district.

The allied health care service practitioners include school nurses, speech therapists, personal health aides, counselors, and special transportation services. These services may be provided to students per his/her **IEP** (Individual Education Plan) or to students within the standard education program. Both the State and Federal governments mandate the school district provide the above referenced health care services to students based upon screenings/assessments that are completed. The Medicaid claims are filed and processed per the district's contract with a billing service agency and the reimbursement funds received are used to meet the cost of providing these health care services.

PREVENTION OF AND RESPONSE TO BULLYING, INTIMIDATION, AND HARASSMENT (7:180)

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important District goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the School District or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This paragraph (item #4) applies only when a school administrator or teacher receives a report that bullying through this means has occurred; it does not require staff members to monitor any nonschool-related activity, function, or program.

Definitions from 105 ILCS 5/27-23.7

Cyberbullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of *bullying*. *Cyberbullying* also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of *bullying*.

health needs in order to keep students in school, and (vii) increase student accountability if the incident of bullying is based on religion, race, ethnicity, or any other category that is identified in the Ill. Human Rights Act.

School personnel means persons employed by, on contract with, or who volunteer in a school district, including without limitation school and school district administrators, teachers, school social workers, school counselors, school psychologists, school nurses, cafeteria workers, custodians, bus drivers, school resource officers, and security guards.

Bullying Prevention and Response Plan

The Superintendent or designee shall develop and maintain a bullying prevention and response plan that advances the District's goal of providing all students with a safe learning environment free of bullying and harassment. This plan must be consistent with the requirements listed below; each numbered requirement, 1-12, corresponds with the same number in the list of required policy components in 105 ILCS 5/27-23.7(b) 1-12.

1. The District uses the definition of *bullying* as provided in this policy.
2. Bullying is contrary to State law and the policy of this District. However, nothing in the District's bullying prevention and response plan is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the U.S. Constitution or under Section 3 of Article I of the Illinois Constitution.
3. Students are encouraged to immediately report bullying. A report may be made orally or in writing to the Nondiscrimination Coordinator, Building Principal, Assistant Building Principal, a Complaint Manager, or any staff member with whom the student is comfortable speaking. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the District named officials or any staff member. The District named officials and all staff members are available for help with a bully or to make a report about bullying. Anonymous reports are also accepted; however, this shall not be construed to permit formal disciplinary action solely on the basis of an anonymous report. Nondiscrimination Coordinator: Mrs. Stephanie Lasswell, 501 E. Randolph St., McLeansboro, IL 62859, lasswells@unit10.com 618-643-2328. Title IX Coordinator: Jay Lentz, 409 West Dale St., Dahlgren, IL 62828, lentzj@unit10.com, 618-643-2328. 4. Consistent with federal and State laws and rules governing student privacy rights, the Superintendent or designee shall promptly inform the parent(s)/guardian(s) of every student involved in an alleged incident of bullying and discuss, as appropriate, the availability of social work services, counseling, school psychological services, other interventions, and restorative measures.
5. The Superintendent or designee shall promptly investigate and address reports of bullying, by, among other things:
 - a. Making all reasonable efforts to complete the investigation within 10 school days after the date the report of a bullying incident was received and taking into consideration additional relevant information received during the course of the investigation about the reported bullying incident.
 - b. Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.
 - c. Notifying the Building Principal or school administrator or designee of the reported incident of bullying as soon as possible after the report is received.
 - d. Consistent with federal and State laws and rules governing student privacy rights, providing parents/guardians of the students who are parties to the investigation information about the investigation and an opportunity to meet with the Building Principal or school administrator or his or her designee to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying.

The Superintendent or designee shall investigate whether a reported incident of bullying is within the permissible scope of the District's jurisdiction and shall require that the District provide the victim with information regarding services that are

available within the District and community, such as counseling, support services, and other programs.

1. The Superintendent or designee shall use interventions to address bullying, that may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.
 2. A reprisal or retaliation against any person who reports an act of bullying is **prohibited**. Any person's act of reprisal or retaliation will be subject to disciplinary action, up to and including discharge with regard to employees, or suspension and/or expulsion with regard to students.
 3. A student will not be punished for reporting bullying or supplying information, even if the District's investigation concludes that no bullying occurred. However, a person who is found to have falsely accused another of bullying, as a means of retaliation, as a means of bullying, or provided false information will be treated as either: (a) *bullying*, (b) student discipline up to and including suspension and/or expulsion, and/or (c) both (a) and (b) for purposes of determining any consequences or other appropriate remedial actions.
 4. The District's bullying prevention and response plan is based on the engagement of a range of school stakeholders, including students and parents/guardians.
 5. The Superintendent or designee shall post this policy on the District's website, if any, and include it in the student handbook, and, where applicable, post it where other policies, rules, and standards of conduct are currently posted. The policy must be distributed annually to parents/guardians, students, and school personnel (including new employees when hired), and must also be provided periodically throughout the school year to students and faculty.
 6. Pursuant to State law and policy 2:240, *Board Policy Development*, the Board monitors this policy every two years by conducting a review and re-evaluation of this policy to make any necessary and appropriate revisions. - 1) An updated version of the policy with the amendment/modification date included in the reference portion of the policy;
 - 2) If no revisions are deemed necessary, a copy of board minutes indicating that the policy was re-evaluated and no changes were deemed to be necessary; or
 - 3) A signed statement from the Board President indicating that the Board re-evaluated the policy and no changes to it were necessary.
- The Superintendent or designee must post the information developed as a result of the policy re-evaluation on the District's website, or if a website is not available, the information must be provided to school administrators, Board members, school personnel, parents/guardians, and students. For any report or complaint alleging sexual harassment that, if true, would implicate Title IX of the Education Amendments of 1972 (20 U.S.C. §1681 et seq.), the Title IX Coordinator or designee shall consider whether action under policy 2:265, *Title IX Sexual Harassment Grievance Procedure*, should be initiated.

For any other alleged student harassment that does not require action under policy 2:265, *Title IX Sexual Harassment Grievance Procedure*, the Nondiscrimination Coordinator or a Complaint Manager or designee shall consider whether an investigation under policies 2:260, *Uniform Grievance Procedure*, and/or 7:190, *Student Behavior*, should be initiated, regardless of whether a written report or complaint is filed.

Students shall be tested in an effort to meet State Goal 20, where students achieve and maintain a health-enhancing level of physical fitness. Based upon continual self-assessment, fitness testing can help students identify their fitness levels and set goals for improvement. Gathering this data also enables parents and schools to better understand the health trends within their

If a formal complaint is filed under this policy, the Complaint Manager will address the complaint promptly and equitably. A student and/or parent/guardian filing a complaint under this policy may forego any informal suggestions and/or attempts to resolve it and may proceed directly to this grievance procedure. Right to Pursue Other Remedies Not Impaired

The right of a person to prompt and equitable resolution of a complaint filed under this policy shall not be impaired by the person's pursuit of other remedies, e.g., criminal complaints, civil actions, etc. Use of this grievance procedure is not a prerequisite to the pursuit of other remedies and use of this grievance procedure does not extend any filing deadline related to the pursuit of other remedies. If a person is pursuing another remedy subject to a complaint under this policy, the District will continue with a simultaneous investigation under this policy.

Deadlines

All deadlines under this policy may be extended by the Complaint Manager as he or she deems appropriate. As used in this policy, *school business days* means days on which the District's main office is open.

Filing a Complaint

A person (hereinafter Complainant) who wishes to avail him or herself of this grievance procedure may do so by filing a complaint with any District Complaint Manager. The Complainant shall not be required to file a complaint with a particular Complaint Manager and may request a Complaint Manager of the same gender. Investigation Process

The Complaint Manager will investigate the complaint or appoint a qualified person to undertake the investigation on his or her behalf. The Complaint Manager shall ensure both parties have an equal opportunity to present evidence during an investigation. If the Complainant is a student under 18 years of age, the Complaint Manager will notify his or her parents/guardians that they may attend any investigatory meetings in which their child is involved. The complaint and identity of the Complainant will not be disclosed except: (1) as required by law, this policy, or any collective bargaining agreement, (2) as necessary to fully investigate the complaint, or (3) as authorized by the Complainant.

The identity of any student witnesses will not be disclosed except: (1) as required by law, this policy, or any collective bargaining agreement, (2) as necessary to fully investigate the complaint, or (3) as authorized by the parent/guardian of the student witness, or by the student if the student is 18 years of age or older.

The Complaint Manager will inform, at regular intervals, the person(s) filing a complaint under this policy about the status of the investigation. The Complaint Manager may request an extension of time.

All decisions shall be based upon the *preponderance of evidence* standard.

Within 10 school business days after receiving the Superintendent's decision, the Complainant or the accused may appeal the decision to the Board by making a written request to the Complaint Manager. The Complaint Manager shall promptly forward all materials relative to the complaint and appeal to the Board.

IHSA ATHLETIC ELIGIBILITY RULE

When you become a member of an interscholastic team at your high school, you will find that both your school and the IHSA will have rules you must follow to be eligible for interscholastic participation. The IHSA's rules have been adopted by the high schools which are members of IHSA as part of the Association's constitution and by-laws. They must be followed as minimum standards for all interscholastic athletic competition in any member high school. Your high school may have additional requirements, but they may not be less stringent than these statewide minimums.

The principal/official representative of your school is responsible to see that only eligible students represent the school in interscholastic competition. Any question concerning your eligibility should be referred to your principal/official representative, who has a complete copy of all IHSA eligibility rules, including the Association's due process procedure. Only the IHSA Executive Director is authorized to make formal rulings on eligibility, so if your principal/official representative has questions or wishes assistance in answering your questions, the principal/official representative should contact the IHSA Office.

Information contained here highlights some of the most important features of the IHSA bylaws regarding interscholastic eligibility. It is designed to make you aware of major requirements you must meet to be eligible to compete in interscholastic competition. The information here is only a general description of major by-law provisions and does not contain the statement of the by-laws in their entirety. You can review the by-laws at www.ihsa.org.

You may lose eligibility for interscholastic competition if you are not in compliance with IHSA by-laws. Remember, if you have any questions regarding IHSA rules, please contact your principal/official representative.

1. Attendance

A. You may represent only the school you attend. Participation on a cooperative team of which your school is a member is acceptable.

B. You must be enrolled and attending classes in your high school no later than the beginning of the 11th school day of the semester.

C. If you attend school for ten (10) or more days during any one semester, it will count as one of the eight (8) consecutive semesters of high school attendance during which you may possibly have eligibility.

D. If you have a lapse in school connection for ten (10) or more consecutive school days during a semester, you are subject to ineligibility for the rest of the semester. The specific terms of your extended absence must be reviewed by the Executive Director to determine if it is "lapse in school connection" or not.

2. Scholastic Standing

A. You must pass twenty-five (25) credit hours of high school work per week. Generally, twenty-five (25) credit hours is the equivalent of five (5) .5 credit courses (2.5 full credits).

B. You must have passed and received credit toward graduation for twenty-five (25) credit hours of high school work for the entire previous semester to be eligible at all during the ensuing semester.

3. Residence

Your eligibility is dependent on the location of the residence where you live full time with your parents, parent who has been assigned custody by the court, or court appointed legal guardian.

You may be eligible if you are entering high school as a freshman and:

A. You attend the public high school in the district in which you live full time with both of your parents, custodial parent or court appointed guardian; or

B. In the case of a multiple school district, you attend the public high school in the attendance area where you live full time with your parents, custodial parent or court appointed guardian; or

C. You have paid tuition to attend a public school for a minimum of 7th and 8th grades in a district other than the one where you live with your parents, custodial parent or

court appointed guardian and you continue to pay tuition as a high school student in that same district; or

D. You attend a private/parochial school located within the boundaries of the public school district where you live with your parents, custodial parent or court appointed guardian; or

E. You attend a private/parochial high school and have attended a private/parochial school for 7th and 8th grades, or for any four (4) grades from kindergarten through eighth grades; or

F. You attend the private/parochial high school which one or both of your parents attended; or

G. You attend a private/parochial high school located within a thirty (30) mile radius of the residence where you live with your parents, custodial parent or court appointed guardian.

4. Transfer

A. In all transfer cases, both the principal of the school from which you transfer and the principal of the school into which you transfer must concur with the transfer in writing on a form provided by the IHSA Office. You cannot be eligible when you transfer until this form is fully executed and on file in the school office.

B. If you transfer after classes begin for the current school term, you will definitely be ineligible for thirty days from the date you start attending classes at the new high school. In addition, you will be ineligible for that entire school term in any sport in which you engaged in any team activity, including but not limited to tryouts, drills, physical practice sessions, team meetings, playing in a contest, etc. at the school from which you transferred. For example, if you were out for cross country at the school from which you transfer and transfer after the IHSA sport season has begun, you will be ineligible for cross country that entire school term at the new school.

C. If you transfer attendance from one high school to another high school, you will be ineligible unless:

1. Your transfer is in conjunction with a change in residence by both you and your parents, custodial parent or court appointed guardian from one public school district to a different public school district;

2. Your transfer is between high schools within a public school district and both you and your parents, custodial parent or court appointed guardian change residence to the district attendance area for the school to which you transfer;

3. Your parents are divorced or legally separated; you transfer to a new school in conjunction with a modification or other change in legal custody between your parents by action of a judge; and required court documents are on file at the school into which you transfer;

D. If you transfer in conjunction with a change in legal guardianship, a ruling on your eligibility must be obtained from the IHSA Office.

E. If you transfer attendance from one school to another while you are ineligible for any reason, the period of ineligibility imposed prior to your transfer or the period of ineligibility that would have been imposed had you stayed at the school, will be enforced at the school to which you transfer, even if you are otherwise in compliance with the by-laws. Illinois High School Association

F. Any questions about your eligibility in any of these instances must be resolved by a formal ruling from the IHSA Executive Director.

G. In all other transfer situations, a ruling by the IHSA Executive Director is necessary to determine your eligibility. This ruling must be obtained in writing by the principal/official representative of the school into which you transfer before you participate in an interscholastic athletic contest.

H. The IHSA Executive Director may grant limited eligibility if you transfer schools prior to the start of your junior year and are not otherwise in compliance with the transfer eligibility by-laws.

5. Age

You will become ineligible on the date you become twenty (20) years of age, unless your twentieth (20th) birthday occurs during a sport season. In that case, you will become ineligible regarding age at the beginning of the sport season during which your twentieth (20th) birthday occurs.

6. Physical Examination

You must have placed on file with your principal/official representative a certificate of physical fitness, signed by a licensed physician, physician's assistant, or nurse practitioner to practice or participate. Your physical examination is good for 395 days from the date of the exam. The physician's report must be on file with your high school principal/official representative.

7. Amateur Status and Name, Image, and Likeness (NIL)

A. If you win or place in actual competition, you may accept a medal or trophy for that accomplishment, without limit to its cost. Your school may provide IHSA state champions with championship rings/mementoes not to exceed \$300.

B. For participating in competition in an interscholastic sport, you may receive any type of award (except cash, check, or legal tender) that does not exceed \$150 in fair market value. There is no limitation on the value of your school letter.

C. The amateur rule does not prohibit you from being paid to referee, receiving pay for teaching lessons or coaching in a little kid's league, etc. It only applies to your own competition in an athletic contest.

D. If you violate the amateur rule, you become ineligible in the sport in which you violate. You must be reinstated by the Executive Director before you may compete again.

E. IHSA By-laws and Board Policies provide guidance and restrictions to when and how you might capitalize on your name, image, and likeness (NIL). Work closely with your principal/official representative on opportunities that come your way.

8. Recruiting of Athletes

A. The by-laws prohibit recruiting of high school students for athletics. If you are solicited to enroll in or transfer to a school to participate in athletics, you are being illegally recruited and your eligibility is in jeopardy.

B. You will lose your eligibility if you enroll in or transfer to a school in response to recruiting efforts by any person or group of persons, connected with, or not connected with the school, related to athletic participation.

C. You will lose your eligibility if you receive special benefits or privileges as a prospective student-athlete which are not uniformly made available to all students who attend your school.

D. You may not receive an "athletic scholarship" or any other special benefit from your school because you participate in athletics.

E. It is a violation for any student-athlete to receive or be offered remuneration or any special inducement which is not made available to all applicants who apply to or enroll in the school.

F. It is also a violation to induce or attempt to induce or encourage any prospective student to attend any member school for the purpose of participating in athletics, even when special remuneration or inducement is not given. Please remember that you may not be offered or receive any benefit, service, privilege, or opportunity which is not also provided or made available to all prospective students at that school. Note: If you are interested in finding out more information about a school, contact the principal/official representative or an administrator at the school, not a member of the coaching staff.

9. School Team Sports Seasons

A. Each sport conducted by IHSA member schools has a starting and ending date. Your school may not organize a team, begin practice or participate in contests in a given sport until the authorized starting date. Your school may not continue to practice or participate in contests after the authorized ending date. This means that:

1. During the school year, you may not participate on a non-school team coached by any member of your school's coaching staff unless it meets specific criteria established by the by-laws.

2. No school coach may require you to participate in an out-of-season sport program as a requirement for being a member of a school team.

B. Violation of the sport season by-laws will result in penalty to you and/or to your school's coaching personnel.

10. Playing in Non-School Competition

A. During the time you are participating on a school team in a sport at your high school, you may neither play on a non-school team nor compete in non-school competition as an individual in that same sport or in any skill of that sport.

B. If you participate in non-school competition during a sport season and subsequently wish to join the school team in the same sport, you will not be eligible.

C. If you wish to participate in a competition sanctioned by the National Governing Body of a sport, a junior affiliate of the National Governing Body of a sport or an official Illinois affiliate for the sport, your principal/official representative must request approval through the Schools Center prior to any such participation.

D. You may try out for a non-school team while you are on your school's team in that same sport, but you may not practice, receive instruction, participate in workouts, or participate in competition with a non-school team in that same sport until you cease being a member of your school's team. You cease being a member of your school's team when the team(s) of which you are a member terminates for the school term.

E. You will become ineligible if you participate on, practice with, or compete against any junior college, college, or university team during your high school career.

11. All-Star Participation

A. After you have completed your high school eligibility in the sport of football, basketball, soccer, or volleyball, you may participate in three (3) all-star contests in any of these sports and still play for other school teams, provided the high school season in that sport has been completed. You may lose your eligibility for other interscholastic sports if you play in all-star competition in any of these sports under any other conditions.

B. You are not restricted from participating in all-star competition in sports other than football, basketball, soccer, or volleyball, except that you may not do so during the school season for the sport.

12. Misbehavior During Contests

A. If you violate the ethics of competition or the principles of good sportsmanship, you may be barred from interscholastic athletic contests, either as a participant or spectator or both.

B. If you are ejected from a contest for unsportsmanlike conduct, you will be ineligible for your team's next contest. You are also subject to other penalties.

JR. HIGH EXTRACURRICULAR PARTICIPATION
